## **Practice 8-1**

**Solids** 

For each figure, describe the base(s) of the figure, and name the figure.

5.

Name the solid that describes each item.

7. bowling ball

8. DVD player

9. soup can

Complete.

- 10. A \_\_\_\_\_ has exactly two circular bases.
- 11. A hexagonal prism has \_\_\_\_\_ faces.
- 12. A cube has \_\_\_\_\_ edges.
- 13. A pentagonal pyramid has \_\_\_\_\_ faces.
- 14. A pentagonal pyramid has \_\_\_\_\_\_ edges.

Name the figure described.

- 15. a space figure with six congruent square faces
- 16. a space figure with parallel bases that are congruent, parallel circles

## Puzzle 8-1

Solids

Solve the riddles to find each mystery solid. Use the circled letters to solve the puzzle.

1. I am a solid with two parallel bases that are congruent triangles. My lateral faces are parallelograms. What am I?

2. I am a solid with parallelograms for lateral faces. I have two bases that are congruent pentagons. What am I?

3. I have one base that is a square. My faces are triangles. What am I?

4. I am a solid with two parallel, congruent bases that are circles. What am I?

5. I am a solid with one base that is a circle. I have one vertex. What am I?

6. My base is a triangle. I have three faces that are triangles. What kind of solid am I?

What percent of the animals known to have ever inhabited the earth still exist today?
